COVID-19 | NSPA Update – May 12th, 2020

NSPA Update on PPE Suppliers

The NSPA has heard from members regarding the need to procure personal protective equipment to prepare for the reopening of clinics. We've been working hard, along side the CPA, to contact potential suppliers for Nova Scotia Physiotherapists.

As a result of this work, the NSPA has been made aware of two local suppliers that currently have a stock of PPE and/or disinfectants. They have confirmed with the NSPA that their stocks are healthy; however, with a high demand of PPE, neither the supplier nor the NSPA can guarantee their stock. They are:

- sourceatlantic.ca (Luke Guthro is the contact)
- lifeshield.ca (Kyle Mohler is the contact)

The NSPA is not directly involved with any company, and as such, all questions should be directed to the company specifically.

Please also check the CPA's supplier list, which gets updated regularly at <https://physiotherapy.ca/clinic-reopening>.

If you know of a company that can be listed as a resource for our NSPA Members, please contact info@physiotherapyns.ca.

As a service to our members we will post this information and the link to the CPA PPE supplier list to the website at <http://www.physiotherapyns.ca/covid-19>

All the best,

Stephen Richey, PT
President
